Ration Continuity

When Microsoft or Google goes down, your business keeps working.

Keep the systems you have. Add a Plan B that is ready when you need it.

1 **Protect**
Your mail, calendar, contacts, tasks and files are kept safe in Ration.

2 **Continue**
If your provider goes down, your people carry on working in Ration.

3 **Recover**
When service returns, their changes go back to Microsoft or Google.

Tested before you need it

Run a practice outage whenever you like, so you know your Plan B works.

Made for organisations that cannot go quiet

Banks, government and critical services.

Ration Continuity covers mail, calendar, contacts, tasks, files and notes. It does not cover chat or meetings.

Your business deserves a Plan B.

ration

Behind it: one workplace.

Ration, the platform that Ration Continuity runs on.

What is Ration?

Ration is everything your organisation needs to communicate and work, in one place, with one sign-in. When you are ready, it can fully replace what you use today, and your data stays yours.

- ✓ Mail
- ✓ Chat
- ✓ Meetings
- ✓ Calendar
- ✓ Contacts
- ✓ Tasks
- ✓ Notes
- ✓ Forms
- ✓ Files
- ✓ Documents

Three ways to run it

YOUR SERVERS

On your own infrastructure

Ration runs inside your walls. You stay in full control.

OUR CLOUD

In the Ration Cloud

We host and run it for you. Nothing to install.

A PARTNER

With a service provider

An approved provider hosts and supports it for you.

From ₦20,000 per user, per year. Priced in naira or your local currency.

Your business deserves a Plan B.
